

# SKYLINE

## INTEGRATED SYSTEM FOR FURNITURE

Skyline è un sistema boiserie modulare composto da montanti ed accessori in alluminio e zama. Grazie alla sua flessibilità è in grado di adattarsi a tutti gli ambienti ed è composto da elementi assemblabili secondo il gusto personale. È dedicato a chi vuole innalzare la qualità degli ambienti abitativi con accessori dal design originale e finiti con estrema cura. Oltre agli accessori standard, Skyline è personalizzabile con accessori studiati e realizzati su misura.

*Skyline is a modular system which is composed by using uprights and aluminum and zincal accessories. Thanks to its flexibility, it can be adapted to all environments and its elements can be assembled following your personal taste. Skyline is destined to person who wants to elevate the living environment with original design concepts. In addition to standard accessories, Skyline can be custom designed with accessories specifically required by the customer.*

La modularità degli elementi rende il sistema adattabile in maniera semplice a qualsiasi spazio.  
*The modularity of the elements makes the system adaptable in a simple way to any use.*

## 590

MANIGLIE HANDLE

In abbinamento al sistema Skyline, Cosma ha sviluppato la maniglia 590 caratterizzata dalle stesse linee disegnate, morbide ed eleganti. L'articolo è ottenuto da un estruso in alluminio ed è studiato per lo spessore anta 20 mm. Le finiture disponibili variano dalle verniciature a polvere alle finiture anodizzate. COSMA fornisce il pezzo tagliato a misura (lunghezza disponibile fino a 3 metri).

*In combination with the Skyline system, Cosma has developed the 590 handle characterized by the same lines designed, soft and elegant. The article is obtained from an aluminum extrusion and is designed for 20 mm door thickness. The finishes available vary from powder coating to anodized finishes. Available length up to 3000 mm.*
